

The 133.9 m “Serene” is equipped with Brunvoll Thrusters

The supremely luxurious “Serene” has space for up to 24 guests and a crew of 52. One of the two helipads converts into a saltwater swimming pool, and a fully equipped boardroom makes “Serene” an inspiring setting for work as well as relaxation. At night, neon runners outline the ship in dramatic turquoise.

“Serene” was the largest yacht launched in 2011, and is thought to be one of the most technically advanced in the world.

The yacht won the 2012 World Superyacht Award in the category Displacement Motor Yacht 3000 GT and above.
